

Phonics and Decodables Catalog

Fall 2024

Build vocabulary, fluency, and confidence.

Decodable texts are science-based books that develop grapheme-phoneme correspondence in young readers, helping them verbalize letters and words correctly and read more confidently. Inside, you'll find:

- The latest phonics and decodable book sets and series
- A Q&A with third grade teacher Hannah Irion-Frake on incorporating decodable texts into your curriculum
- Tips on how to start your very own #ClassroomBookADay with inclusive picture book read-alouds
- An exciting webinar with literacy advocate Jessica Farmer on unlocking the potential of decodable books in the classroom
- Educator resources, such as scope and sequence lists, alignments, and teacher guides to help you implement these resources

Bolded words highlight the new phonics concept

New concept: suffixes and prefixes

bus

District 38

Libby got halfway up the bus steps and turned around. "Fairies can fly!" she whispered.

Greg nodded and followed her onto the bus. "I am **excellent** at flying!" Libby said as she clambered up the back of a bus seat and launched herself into the air.

"Libby! That's **extremely unsafe!**" Greg caught her in midair and put her back on her feet. "Let's go and sit down."

Herb, the bus driver, chuckled. "Well done, Greg. You sure have your hands full today. You should have **predicted** that a fairy would try to fly!" Herb winked at Greg.

Greg exhaled and led Libby to an empty spot.

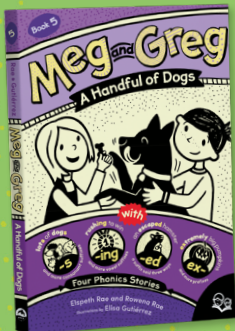

OK, kids! **Remember**, no standing up as I drive.

That includes you, Libby.

I am not Libby. I am a fairy!

OK, that includes you, fairy.

- **Three layers of text:** object labels, speech bubbles and the longer story
- **Each book features four stories that introduce a new phonics concept**
- Meg and Greg books are **built for shared reading**
- Includes **special features** to help readers with dyslexia and other language based learning difficulties including **shaded paper, extra space and easy-to-read font**

30 Books

Systematic, yet Flexible

Introduce K-2 phonics skills in a carefully planned order with logical skill building from easy to complex, based on a systematic scope and sequence developed by literacy experts and aligned with the Science of Reading. Yet, flexible enough to be used in conjunction with existing curriculum.

Text-First Options

Practice without pictures before introducing pictures or illustrations that support decoding skills, build vocabulary, and confirm understanding of text.

Highly Decodable

Encounter texts that have been carefully selected to contain previously taught graphemes, phonemes, and high-frequency words and follow common English language structures.

Aligns with Science of Reading and Structured Literacy

Mrs. IF shares insights on decodable texts.

Third grade teacher Hannah Irion-Frake, popularly known as “Mrs. IF,” discusses decodable texts and how to use them to help beginning readers verbalize the letters and words they read.

What are decodable texts?

They are content for beginning readers that have been controlled to only include the grapheme-phoneme correspondences and high-frequency words students have been taught through instruction. A text is only decodable to the extent that the student has learned the grapheme-phoneme they will find in that text, and thus will be able to verbalize what they read.

continued...

When do you use decodable texts?

Decodable texts are often the final step in a good phonics lesson plan. I use them after students have had explicit instruction and opportunities to practice reading and writing the target phonics pattern in words and sentences.

How do I align decodable texts with my curriculum?

To understand what grapheme-phoneme correspondences and high-frequency words your students are ready to encounter in decodable text, it is best to use a scope and sequence as part of your phonics curriculum. This organizes the order of phonics skills taught to students and acts as a road map for patterns learned and patterns to come. From my teaching experience, I know there is not one perfect scope and sequence – but I do know what makes a good one! Look for a progression of skills from easy to more complex.

Aren't decodables boring?

This may be true for fluent adult readers, but we must remember the purpose of using decodable texts as an instructional tool – they are not the end goal of instruction but rather a means to an end. They provide a safe place for young students to successfully read familiar grapheme-phoneme correspondences, which builds confidence in our young readers.

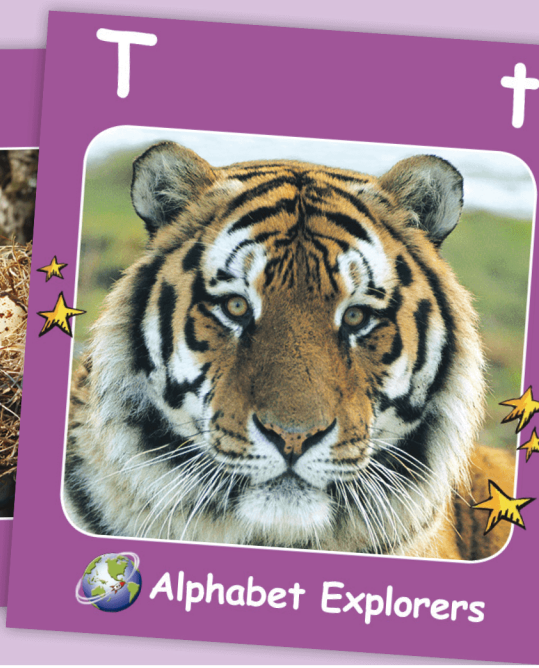

To learn more about decodable texts and early learning literacy, read the full Q&A and watch our webinar featuring Hannah Irion-Frake.

The Decodables

72 Titles
8 Unique
Sets!

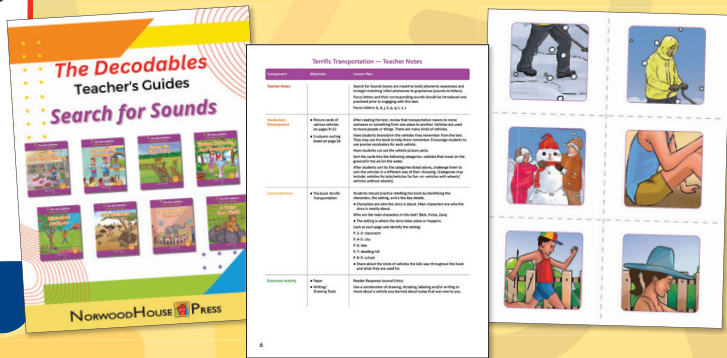

The Decodables incorporates the research and findings of the Science of Reading. The term “Science of Reading” refers to the research that reading experts, especially cognitive scientists, have conducted on how we learn to read. Each book follows an expertly crafted scope and sequence that incorporates fundamental spelling patterns. A corresponding Teacher’s Guide/Lesson Plan will be available for each title to help reinforce decodable text concepts and patterns both in the classroom and at home.

Sets include:

- **Kindergarten (Introduction to letter sounds)** – Search for Sounds set (8 books)
- **End of K–1st (CVC patterns)** – Friends and Family Fun set (12 books)
- **1st Grade (Consonant Blends)** – Things We Like to Do set (8 books)
- **1st Grade (VC-e patterns)** – Activities with Friends set (6 books)
- **2nd Grade (Vowel patterns)** – Discover Plants and Animals set (9 books)
- **2nd Grade (Advanced vowel patterns)** – Fables and Folktales set (9 books)
- **2nd–4th Grade (Advanced Phonics patterns and morphemes)** – Code Breakers Nonfiction set (10 books)
- **2nd–4th Grade (Advanced Phonics patterns and morphemes)** – Code Breakers Fiction set (10 books)

Downloadable Teacher’s Guides for Each Book!

The Decodables

NorwoodHouse  PRESS

Code Breakers titles are designed to support readers who have mastered basic decoding skills and are moving into the later alphabetic and consolidated phase of reading. Through carefully selected words and high-interest topics, each book allows upper elementary readers the opportunity to practice advanced phonics patterns and morphemes in engaging, age-appropriate text. Readers will gain confidence in their fluency skills while building knowledge as they progress through these beautiful, informative, and fun books.

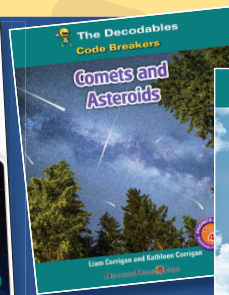

- Science curriculum-aligned content supports classroom learning
- Each title follows a phonics scope and sequence aligned with the Science of Reading
- High-interest approach to space science content draws in readers
- Word list at end offers practice of individual sounds and sounds in words through meaningful, connected text
- Supportive illustrations help readers navigate text while they practice essential decoding skills
- Encourages reader engagement with nature and the world around them

Level 1 introduces readers to consonants, short vowel sounds, and long vowel sounds (CVCe)

18-Book Set, Reading Level Grade K,
Interest Level Grades PreK-1

Level 2 focuses on consonant blends and digraphs, vowel teams, and inflectional endings

18-Book Set, Reading Level Grade 1,
Interest Level Grades K-2

Level 3 incorporates affixes, r-controlled vowels, inflectional endings, diphthongs, and silent letters

18-Book Set, Reading Level Grade 2,
Interest Level Grades 1-3

Lerner 

Meet Jessica Farmer, the force behind Farmer Loves Phonics, a literacy advocate in the world of education on social media. Her journey into the science of reading began in 2020 with the onset of the pandemic when she took to TikTok to connect with parents who were supporting their children's at-home learning. Today, Jessica continues creating informative content, offering valuable resources and insights for parents and educators!

Unlock the potential of decodable books in the classroom.

Decodable texts are an increasingly popular resource for early learning educators. Watch literacy advocate and influencer Jessica Farmer discuss how to create more engaging and dynamic learning environments with decodable books.

Learn how to:

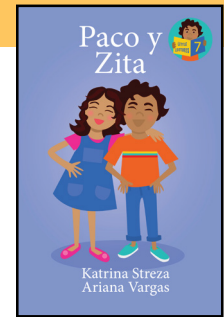

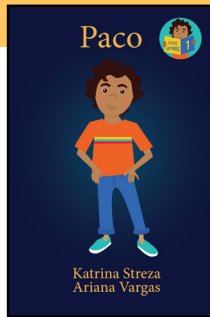

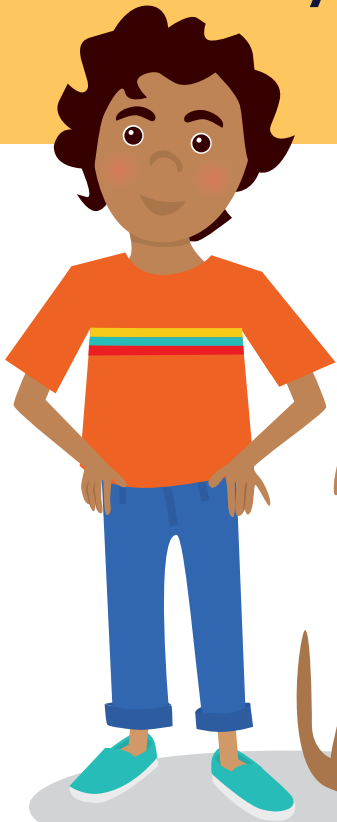

- Select decodables for both individuals and groups
- Use decodables in small group reading activities
- Use decodables to help older students
- Employ alternative objectives and strategies for decodables

Whether you're new to decodable books or looking for new ways to use them, this info-packed webinar will inspire your literary education efforts!

Decodable Readers

What Does Research Say About the Characteristics of High-Quality Decodable Texts? Decodables Must Be...

1. Instructive

Texts should provide plenty of **phonics skills practice** in an **explicit, systematic**, and **spiraled way**, with a high percentage of words that can be **sounded out**.

Embedded support in each book introduces high-frequency words and offers a post-reading prompt.

2. Comprehensible

The vocabulary and sentence structures should incorporate **natural-sounding speech** and **sentence patterns**.

3. Engaging

Fiction and nonfiction texts should be **fun**, **interesting**, and **informative** with vivid design and engaging subjects—worth reading, talking about, writing about, and rereading to **develop fluency**.
